

Instant Fruit Powders

**Gift from the Earth:
Enhancing real fruity taste
satisfaction with natural fruit powder**

A “true to fruit” profile in food and beverage applications has become a growing demand as consumers often expect healthy products to taste natural and fresh, and flavours to truly complement the functional ingredients used in the product.

iprona’s instant fruit powders are spray-dried powders which are easily dispersible with full aroma stability. They are easily applicable to a wide range of products.

Applications:

Juice drinks

Health drinks and supplements

Dairies and ice creams

Sauces and seasonings
